The scoring rules · 2026 USA Pickleball Official Rulebook

- Before each serve the score is called as three numbers: the serving team's score, the receiving team's score, then the server number, 1 or 2. (Rule 6.B.2)
  A game starts with the call "0–0–2". The team that serves first gets one server in its first turn: its starting server counts as the second server, so the first lost rally is a side out. (Rules 5.B, 5.B.2 and 6.B.2)
- Only the serving team can score. It wins a point by serving and winning the rally. (Rule 4.A)
- Each team's starting server stands on the right when the team's score is even, zero included, and on the left when it is odd. The partner takes the other side. This decides where both teams stand to serve and to receive. (Rule 5.B.3)
- Rally scoring is a provisional rule: an option for both singles and doubles. (Rule 14.A)
- In tournaments every scoring option is won by 2 points, except that team play may allow a win by 1. (Rule 15.C)

In tournaments, in a single-game match or a deciding tie-breaker game, players change ends when the first side reaches 6 in a game to 11, 8 in a game to 15, and 11 in a game to 21. (Rule 21.B)
